# DEADFACE

**Dethklok**

Off in the distance
Gazing into the chasm
Transmissions from the sky
Cantankerous
Denier of hope
Emptier of dreams
Fathomless
Stygian
Mask of DETH
Calcification growing
Are you inside

Isosceles
Trident glistening
Epidermis of stone
Rigor mortis
Frost bitten eyes
Leaking poison
Venomous
Blanketed
In blood forever
Killing life on the planet
With a face

Weighing grievous
Inside the head
Crown of cobras
Prince of DETH

Your face
Is lowered
Into
The dirt
This face
Must rise
Again
On earth
