

Breaking Through

Deuce

Fight, fight with me
We'll make it through, through again
Now, now I see
Where I'm gone
Gone to find my home

Lonely crawling through these dark walls
Finding hope if hope still exists
But I can see the things you put me through
I felt this way
I felt this way for so long
And all the pain I felt in this life
Gone in this

Losing in this game of life now
I lost you before
I felt so much pain
And now I wanna say goodbye to all those times we fought
Those times you were by my side
I felt like this wasn't real
Like I was living in someone else's dream

My home
My home
My home
And I know that you can't see the future
Because it's lost
And now I've seen it in the past
And I fear that
There's nothing left for me
Or left for you
Or left for god to live for
I won't give up on the future

But I can see the things you put me through
I felt this way
I felt this way for so long
And all the pain I felt in this life
Gone in this
