

## Easy

dEUS

When your heart is wilting  
And your chips are down  
When your soul is pining  
For a friendly sound

When you curse the sun  
For it's easy ray  
And you eavesdrop  
On yourself that way

Give your heart a little pause  
You are more than your flaws  
Get it out of their claws  
Every breath that you draw  
Will be easy  
Will be easy

So you think a mountain

And the sea  
You escape your own  
Gravity  
Away from the occupier  
He stole your spark  
Now he wants your fire

Oh my love where you been  
I am trying to come in  
From the cold gambling  
Cause my heart needs a win  
Make it easy

Every step that you trace  
Every dream you will chase  
Give your heart a little space  
You will find that your days  
Will be easy
