

Suds & Soda

dEUS

Your head come on is dead and gone it might as well be said so long

It's suds and soda a brain decoder and can I wait for my decoder

Get off get up you son of pop the light below is bright on top
It's suds and soda a smile decoder and can I get yeah what I ordered?

And there's always something in the air, sometimes, suds & soda
mix ok with beer

Can I, can I break your sentiment

You're just a monument, can't see no precedent

Just wanna shout what the fuck

Jimmy Dean is Halloween like kerosene for dee dee scene

It's suds and soda a brain decoder and can I skip this thing I ordered

Get off get up you son of pop the light below is bright on top

It's suds and soda a vibe decoder and can I get yeah what I ordered?

And there's always something in the air, sometimes, suds & soda
mix ok with beer

Can I, can I break your sentiment

(To me) you're just a monument, can't see no precedent

Just wanna shout what the fuck

And there's always something in the air

Your face come on is dead and gone, you might as well be said so long

It's suds and soda a brain decoder and can I wait for my devotee

Get off get up you son of pop the light below is bright on top

It's suds and soda a smile decoder and can I skip yeah what I ordered?

And can I break your sentiment?

So can I break your sentiment, so can I break your sentiment

So can I break your sentiment, so can I break your sentiment

So can I break your sentiment, so can I break your sentiment

So can I break your sentiment, so can I break your sentiment

So can I break your sentiment, so can I break your sentiment Friday,

Friday, Friday, Friday, Friday,

Friday, Friday, Friday
