

# It's Down To You

Deva Mahal

And I won't be the only one  
To travel over land and sea  
And I won't be the only one  
'Cause that's a lonely life for me

Tell me 'bout your love  
And I've never seen it  
It's not enough to make it  
You've gotta mean it

Whoa, and it's down to you  
I've tried everything to please you  
And what else can I do?  
Darlin', I can't wait

And I won't be the only one  
Who'll lay my life, lay my life on the line  
The lights are up and the curtains down  
Listen boy, you're out of time

You tell me 'bout your love  
But you never show it  
It's not enough to say  
I've gotta know it

Whoa, and it's down to you  
I've tried everything to please you  
And what else can I do?  
Baby, I can't wait, oh

Whoa, I know if I stay here  
I'll never make it (Never make it)  
So I'm running with my heart  
Before you break it

Whoa, and it's down to you  
I've tried everything to please you  
And what else can I do?  
And baby, I can't wait, see, no

And it's down to you  
I've tried everything to please you  
And what else can I do?  
Baby, I can't wait  
See, Lord, I've tried everything  
See, Lord, I've tried everything  
See, Lord, I've tried everything
