

Charger

Devendra Banhart

Well it looks like I've lost my charger
My charger's gone away
It looks like you've lost your hunger
Your hunger's gone away

Gone away
Gone away
Gone away
Gone away

Well it's starting to be the time for me
To tell you what's in my heart
'Cause baby I love your troubles so much
I loved them from the start

From the start
From the start
From the start
From the start

Everything's burning down
But the grass is always green
Everything's burning down
But the grass is always green

Always green
Always green
Always green
Always green

So we sat and it felt like dancing
Looking across the lake
Singing this song, you can love someone wrong
But you can't love by mistake

By mistake
By mistake
By mistake
By mistake

Everything's burning down
But the grass is always green
Everything's burning down
But the grass is always green

Always green
Always green
Always green
Always green
