

## Foolin'

Devendra Banhart

Foolin' on the human population  
I know my mind's on the front line  
But when I'm lovin' on the human population  
Thank God my heart's playin' its part

One day, one day at a time  
One day, one day at a time

Love is the birth of a nation  
Born from the good womb of humankind  
All these stories of creation  
Came from the same flame of the most high

One song, one song at a time  
One song, one song at a time

Fearing oh I'm sure gettin' better  
With every morn a new fear is born  
But when I'm trusting trusting trusting  
Knowing that we're in it together  
Free to face unknown, free to overcome

One day, one day at a time  
One day, one day at a time
