

# Don't Take It Away

Devics

Now don't take this away  
I could do that too  
Don't take this away  
I could finish you  
We had one eye closed  
All that time

Follow me to nowhere  
If you want to go there  
Follow me to nowhere

You could arrange my trial  
My head was heavier than light  
And I got really good at telling lies  
And making up a story every night

Follow me to nowhere  
If you want to go there  
Follow me to nowhere

Don't take this away  
You know I couldn't end it anyway  
Your holiness is blinking in my face  
And you could really put me in my place

Follow me to nowhere  
If you want to go there  
Follow me to nowhere
