

## If You Forget Me

Devics

If you, if you forget me my darling  
You'll find me by the wayside where you left me  
So toast to all my miserable failures,  
I'll never see your beautiful face again  
If you, if you forget me my sweet

And tear all of the pictures and the letters too  
And let them fall in the streets and the doorways  
On this wind blows my love to you  
On this wind blows my love to you
