

Stretch Out Your Arms

Devics

Lay down and stretch up your arms
There will be no one to harm us now
I am radiating in your hand
We're in the glass

Oh Lord tell me where to go
Show me and I will follow

And I'll be good

Lay down and stretch out your arms
So I can fit right on your chest
Wrap tight around me my love
It's gonna hurt when you see what you've done

And I'll be there

Oh Lord tell me where to go
Show me and I will follow
You could deepen my wounds
Or you could tell me that I am good

Lay down and stretch out your arms
Now I know that you meant me no harm
Here in the safety of my bed
How many times must I break
