

[Verse 1: Paul Green]

They said we'd ended, that we're just lingering
They cut our throats to watch us bleed out, they're bathing
Without doubting that we're already dead
I'm not tempted to give a f*ck
And I wondered
Is this through?

[Chorus: Ed Gibbs]

Maybe I
Could find a sense of peace
And maybe I
Could drown this out
And maybe I
Could find a sense of peace
But I don't want to know (Yeah)

[Verse 2: Paul Green]

They said our relevance was already dead
But now exhumed and the heart is still beating
Without doubting that we're already done
I just don't want to give this time

And I wonder
Do you still care?
But I'll tell you that I'm already done
With your hating and your contempt
And I won't fall
Until you lay bare

[Chorus: Ed Gibbs]

Maybe I
Could find a sense of peace
And maybe I
Could drown this out
And maybe I
Could find a sense of peace
As every word takes it out of me

[Post-Chorus: Paul Green]

Are we fading?
It doesn't matter to me

[Bridge: Paul Green]

I will stand tall
I will stand tall till the end
I will stand tall
I will stand till the end
Stand till the end

[Outro: Paul Green]

Down not
Out
