

# Shattered Silence

## Devil You Know

The killing fields, a revolution

Careless with the gifts we've been given  
Cast aside the way of the weak  
Place your faith in yourself  
Change comes to slow, so let's take control

Make no mistake, let these words ring clear  
We move as one, there is no fear

Make your choice, shatter silence  
Our voice, the only solution  
We won't walk in the shadows  
The killing fields, a revolution

The killing fields, a revolution

We hold the key to a better way of life  
This is our destiny, this is why we fight  
Paradise is more than a dream  
I will give my all, I will pay the price

Make no mistake, let these words ring clear  
We move as one, there is no fear

Make your choice, shatter silence  
Our voice, the only solution  
We won't walk in the shadows  
The killing fields, a revolution

Ripping back the unknown  
Exposing all that was hidden  
The weakness shows in the eyes of those  
Who have reason to fear what we find

Fear what we find

Make your choice, shatter silence  
Our voice, the only solution  
We won't walk in the shadows  
The killing fields, a revolution

Fear what we find  
Fear what we find

The killing fields, a revolution
