

# Fate Stepped In

DevilDriver

Fate!

Peddlers, pushers, insects  
The chants, charms  
Blood sweat and beer  
I've got bones to throw

It's no secret  
Secrets aren't bought and sold  
You gotta pay  
With your heart and soul

We're all laid low by the hand,  
So get your head up  
Get your head up outta the sand,  
So get your head up  
The lion will eat the heart,  
Serpents coil from the start  
What did you hope to achieve?

Along side rides, one with great destiny

Fate stepped in to lend a hand again  
Fate stepped in to lend a hand  
Fate stepped in to lend a hand again  
Fate stepped in to lend a hand

Echoes from the grave!

Potions, oils, insects  
Their chants, charms  
Blood sweat and beer  
I've got bones to throw

It's no secret  
Secrets aren't bought and sold  
You gotta pay  
With your heart and soul

We're all laid low by the hand,  
So get your head up  
Get your head up outta the sand,  
So get your head up  
The lion will eat the heart,  
Serpents coil from the start  
What did you hope to achieve?

Along side rides, one with great destiny

Fate stepped in to lend a hand again  
Fate stepped in to lend a hand  
Fate stepped in to lend a hand again  
Fate stepped in to lend a hand

Echoes from the grave!  
From the grave (2x)

Watching the vultures swarm  
Like being tied down  
In the midday sun

Echoes from the grave!  
From the grave (2x)  
Echoes from the grave!  
From the grave (2x)
