

## Head on to Heartache (Let Them Rot)

DevilDriver

Secure and hold fast  
Before you lose control  
It's hell of high water  
Believe in gods, hoovers, horns and thunder  
Days of wrath, dont go seeking shelter  
Poison creeps, serpents sluther, then slumber

Bastards, paradise, true the bargain was made  
Full thrust, entired to an early grave  
Deals were struck late into a cold winter's eve  
The table was set, laid out for the feast

Secure and hold fast, before you lose control

Head on the heartache  
Beware of the promises made  
Head on the heartache  
Steadfast on an early grave (Let them rot!)

Deals with the Devil, there's no second best  
It's in my nature to say fuck the rest  
Ever thought the world was crashing down?  
Man, people were talking all around

Bastards, paradise, true the bargain was made  
Full thrust, entired to an early grave  
Deals were struck late into a cold winter's eve  
The table was set, laid out for the feast

Let them fucking rot!  
Let 'em rot

Secure and hold fast, before you lose control

Head on the heartache  
Beware of the promises made  
Head on the heartache  
Steadfast on an early grave (Let them rot!)
