

# This Relationship, Broken

DevilDriver

Angry in the heart, emptiness  
Forever more I keep on screaming  
But no one answers  
It cuts through me like a cancer

I live up to my name  
Don't fuck with family or game  
You'll never be the same  
Get it engrained  
Well there's a price to pay  
So save your breath today  
You're not who you portray  
Get it engrained

For revolution  
For the unspoken  
Ill-gotten gains  
The only solution  
The day of reckoning  
This relationship broken  
Like waves on the shore  
These nights will break you  
They can even the score  
No easy way out  
This relationship broken  
Strung out on the floor  
These nights will break you  
They can even the score  
No easy way out

Waking, nightmare  
I can't get out of what I see in the mirror  
Who I am, what I say, what these feeling are?  
It'll never wash away

I live up to my name  
Don't fuck with family or game  
You'll never be the same  
Get it engrained  
Well there's a price to pay  
So save your breath today

This relationship broken

Strung out on the floor  
These nights will break you  
They can even the score  
No easy way out

The air so heavy  
It'll make you choke  
Look in the mirror  
You'll never be whole  
Burning incense  
Up in smoke  
The air so heavy  
It'll make you choke

These nights can break you  
They can even the score

For revolution
