

"Et vidi de ore draconis et de ore bestiae
et de ore pseudoprophetae spiritus
tre immundos in modum renarum"

Arise!! Forgotten wounds
have now ben opened
Gratification for all humiliated lives
of those who dared to think
immortal power of vendetta
crushing skulls of enemy
Look to the sky and see them dead
- the picture of god's misery

Toward mind's labyrinth I see
infected neurons
bringing human's thoughts to me
Son of the Morning Star I am
Erotic dream of Eden,
he who once has been betrayed

"Sunt enim spiritus daemoniorum
facientes signa est procedunt
ad reges totius terrae congregare
illos in proelium ad diem magnum
Dei omnipotentis"

Arise!! Forgotten wounds
have now ben opened
Gratification for all humiliated lives
of those who dared to think
immortal power of vendetta
crushing skulls of enemy
Look to the sky and hear their lament
- your god has been dethroned!!!

"Et congregavit illos in locum
qui vocatur Hermagedon"

Arise!! Forgotten wounds
have now ben opened
Gratification for all humiliated lives
of those who dared to think
immortal power of vendetta
crushing skulls of enemy...
