

## Bright Lights

Devilskin

Here I go  
I'm lost again  
Miles away from you and him  
But these hours turning into days  
Winding roads, they lead me astray  
And all before the time wakes up  
I'm calling home to say my love through these crowds

These pictures keep my heart unlocked  
They help me calm, oh, this homesick heart  
But it won't stop getting harder  
It's time to let these bright lights carry me home

The darkness grows  
With sleepless nights  
So heavy on my head  
Trying to dry my eyes  
My headlights brighten up the roads  
I'm closer to you  
Coming home through these skies

These pictures keep my heart unlocked  
They help me calm, oh, this homesick heart  
But it won't stop getting harder  
It's time to let these bright lights carry me home

Bright lights  
Bright lights  
Bright lights  
Carry me to the next city  
Bright lights  
Carry me home  
Bright lights, bright lights  
Loving eyes leave a memory  
Bright lights, bright lights  
Leave me here alone

Now if you look into my life  
You'll see what's wrong

These pictures keep my heart unlocked  
They help me calm, oh, this homesick heart  
But it won't stop getting harder  
It's time to let these bright lights carry me home
