

Corrode

Devilskin

The black mould grows, takes over the walls
My skin drowned deep in stench
Dead skin lays low, and old rust corrodes
In dirty water I'm drenched
For tonight I'll get some sleep

All I need is a little help
These stains they don't wash out
It's piling up in me more and more
All I need is a little help
These pieces don't fit now
Dirty water, corrode in me

These stinging eyes and I'm lost in late nights
Pull your head close to the breast
I sacrifice the bed which I lie
To make sure you get some rest
For tonight I'm counting sheep

All I need is a little help
These stains they don't wash out
It's piling up in me more and more
All I need is a little help
These pieces don't fit now
Dirty water, corrode in me

These stinging eyes and I'm lost in late nights
I sacrifice the bed which I lie
I sacrifice the bed which I lie

All I need is a little help
These stains they don't wash out
It's piling up in me more and more
All I need is a little help
These pieces don't fit now
Dirty water, corrode in me

These stinging eyes and I'm lost in late nights
