

Grave

Devilskin

Only one chance
Only one Life
Only one day
To make it alright

If all is without
And all is within
If only you knew
The state that you're in

Feel the breath I take
Hearts so easy to break
Life so easy to fake
Grave, your first mistake
Your first mistake

Your final word
Or your final day
Darkness is all
That you begin to fade
I'll find the strength
When I find you gone
I'll find it easy
I'll carry on

Feel the breath I take
Hearts so easy to break
Life so easy to fake
Grave, your first mistake
Your first mistake

Believe it
Don't you know we reap what we sow
There's no need to pretend that
It's you who needs to grow
And to live
Like there's no tomorrow
Share the light that you follow
Share the world that you wanted
It's all for everyone

Feel the breath I take
Hearts so easy to break
Life so easy to fake
Grave, your first mistake

Your first mistake!
Yourrrroar!
