Start A Revolution

Devilskin

Hey kids time to roll
That's how we lost control
Wasting precious time
I couldn't tell you why

Come alive, and the time is mine
Shut the light, as I lead the blind
Took the knife for the sleeping or happy
But the days are overlapping
(Our days are overlapping)

I'll start a revolution when I get up in the morning
I'll start a revolution when I get up, get out
Start a revolution, start a revolution
When I get up in the morning
Start a revolution, start a revolution
When I get up in the morning

Everyday you get weaker stand up
Cause we need you
Everyday is a reason to just
Do it all over again

Come alive, and the time is mine
Shut the light, as I lead the blind
Took the knife for the sleeping or happy
But the days are overlapping
(Our days are overlapping)

I'll start a revolution when I get up in the morning
I'll start a revolution when I get up, get out
Start a revolution, start a revolution
When I get up in the morning
Start a revolution, start a revolution
When I get up in the morning

When I get up in the morning
(Get up, get out, get up)
Get up in the morning
(Get up, get out, get up)
When I get up, get out

All the things you do that you tell me not to
To walking in my shoes but you stumble, don't you?
Four, five, six AM
I'm up all night, oh!

I'll start a revolution, when I get
I'll start a revolution, get up, get out
Start a revolution, start a revolution
When I get up in the morning
Start a revolution, start a revolution
When I get up in the morning

I'll start a revolution, get up in the morning
I'll start a revolution, get up in the morning
I'll start a revolution

I'll start a revolution
Get up, get out
