

Surrender

Devilskin

And now I call and you listen
Take my hand and we'll begin
And now if all the stars were glistening
And now I call and you listen
Take my hand and we'll begin
And now if all the stars were glistening
The darkness from your dreams within

And what if we had never felt
So close to a God before
If dreams are made to look like this
Then hell's a place I've been before

And we sail through the never
Hold me tight, don't leave me ever
Hold on to our love forever
Love me now to love surrender

And now I call and you listen
Take a stand, we fight to win
The sun and moon above bear witness
Love will conquer everything

And what if we had never felt
So close to a God before
If dreams are made to look like this
Then hell's a place I've been before

And we sail through the never
Hold me tight, don't leave me ever
Hold on to our love forever
Love me now to love surrender
And we sail through the never
Hold me tight, don't leave me ever
Hold on to our love forever
Love me now to love

And we sail through the never
Hold me tight, don't leave me ever
Hold on to our love forever
Love me now to love surrender
And we sail through the never
Hold me tight, don't leave me ever
Hold on to our love forever
Just Love me
To love me, yeah
