

# Until You Bleed

Devilskin

Look at me I'm bigger than you  
I'm stronger, my shadow takes over you  
Overpowered I'll bring you down  
Not bothered by you  
By the time I see shit  
Through you're going to want to breath  
What you want and what you need  
Cause broken bones heal differently  
They'll fuck you up until you bleed  
Cause broken bones heal differently  
Look at me I'm bigger than you  
I'm stronger, my shadow takes over you  
Overpowered I'll bring you down  
Not bothered by you  
By the time I see shit  
Through you're going to want to breath  
What you want and what you need  
Cause broken bones heal differently  
They'll fuck you up until you bleed  
Cause broken bones heal differently  
What you want and what you need  
Cause broken bones heal differently  
They'll fuck you up until you bleed  
Cause broken bones heal differently  
These broken bones heal differently  
These broken bones  
These broken bones heal differently  
These broken bones  
Now's about time to break it down  
And breathe, breathe, breathe  
Breathe, breathe, breathe  
Breathe, breathe

Burn alive, burn alive  
I'll see you through  
I'll never let you down because

What you want and what you need  
Cause broken bones heal differently  
They fuck you up, until you bleed  
Cause broken bones heal differently  
What you want and what you need  
Cause broken bones heal differently  
They fuck you up, until you bleed  
Cause broken bones heal, heal differently
