

# Blind Man

Devin Dawson

We've got tonight to ourselves  
I couldn't see myself right here with no one else  
It's been too long, girl I know  
But I'm all yours so come on lead me where you wanna go, baby

Take these tired fingertips  
Trace that goosebump braille across your skin  
Tonight I wanna read you with my hands  
Let's let the candles burn, kill those lights  
I wanna re-learn all your curves and lines  
In a way that I could only understand  
If I were a blind man

Let's just close our eyes  
Let these touching, feeling senses come alive  
'Cause now our pulse is raising, hearts are beating, in syncopa  
ted harmony  
If I said I didn't need you I'd be lying, 'cause I've been dyin  
g to

Take these tired fingertips  
Trace that goosebump braille across your skin  
Tonight I wanna read you with my hands  
Let's let the candles burn, kill those lights  
I wanna re-learn all your curves and lines  
In a way that I could only understand  
If I were a blind man  
I ain't gotta see you baby, I just wanna feel you like a blind  
man

Sometimes we blink and take this love for granted  
But I won't lose sight of all that I've been handed

'Cause I'm gonna these tired fingertips  
Trace that goosebump braille across your skin  
Tonight I wanna read you with my hands  
Let's let the candles burn, kill those lights  
I'm gonna re-learn all your curves and lines  
In a way that I could only understand  
If I were a blind man  
I ain't gotta see you baby, I just wanna feel you like a blind  
man

'Cause we've got tonight to ourselves  
I couldn't see myself right here with no one else
