

Gimme Some

Devin the Dude

Girl when you gonna (gimme some)
I've been waiting for you to (gimme some)
I was hoping that you would (gimme some)
Don't say no girl (gimme some, I need it now make me feel so good)

Stop teasing all that hard breathing
Got my dick stiff and you're pulling on it like a stick shift
It gets dry when you constantly rub it
And I would just love it if you would just suck it
I like your company but that's not enough for me
Just put your trust in me, you'll see how good that nut could be
I won't be running round the city tellin' niggas how I hit it
Had no Idea how to act a few years back but now I get it
With me and you and what we do I'll keep it confidential
Just say yes and go get dressed girl I'mma come and get you
You're the reason why I'm leaving my old ways
My black book is gone and I done forgot where them hoes stay
And I was just thinking, just maybe, you could be my one and only lad
y
But I was wondering

Girl when you gonna (gimme some)
I've been waiting for you to (gimme some)

Pull out my jagged edge make a nice intro

And easy, and get you wetty wetty
