

I  
I wonder why I've come undone  
I've come undone  
Stay with me, (play with me!)

O.K., I know I missed it  
The point I mean...I missed it good  
And if I could good God I would  
Stay with me, (play with me!)

Now I've seen the way it's headed  
Down and down, the truth descended  
Have it here and without worry  
Baby please, there is no hurry...I'm fine!

Stay with me!  
Play with me!  
Stay with me love!  
Play with me!

Ego?!... it's only a song!

Fire it up!

We are the word, we are the one!  
We are forever debted to you, so we know you'll come!

Now I see the way I'm headed  
Down and down, the youth descended  
Hell is here, but it hath no fury  
Woman still, there is no worry I'm fine!

Stay with me!  
Play with me!  
Stay with me love!  
Play with me!  
Stay with me!  
Play with me!  
Stay with me!  
Play with me!  
Stay with me!  
Play with me!  
Stay with me love!  
Play with me!
