Loud

Devin Townsend Project

One more? Do you have any more? Are we good?

It's too loud...loud...
Stay...you're right...you're always right...
Stay...you're right...you're all I love...
All for the light...
Babe, you're right, but you're always right...
Say goodbye, but to wrong...to wrong...
All for the light, fall for the light...
Loud...loud...

Do you know the way, the way back?
You knew the way, you were the way
You knew the way, you were the way
You knew the way
You were the one that got away

It's too loud...too loud...loud...
