

Canucklehead

Devin Townsend

I wanna tell you that the whole damn thing is beauty
Even when times are brooding
Turn off the radio and throw it away
I got a thing or two that I wanna say
Well I gotta keep on moving, gotta see it through
Everything is OK!

I wanna say that I think everything is music
Even things that I wouldn't choose, yeah
All the people around me are evil
And then every song is done by the Beatles
Well I gotta keep on moving, gotta see it through
Everything will be OK

If you think you're moving but it's harder to tell
I can guarantee you that you're wearing it well
If you think you're going through the fires of hell
Well you better keep on going

And let me tell you that the whole damn thing is brutal
Even when you're trying to get through though
I'm a believer till the end of the day
And you will not stand in my way
Well I gotta keep on moving, gotta see it through
Everything will be OK

If you keep it moving then it's harder to tell
I can guarantee you that you're wearing it well
I can feel you're going through the fires of hell
Well we better keep on going

I wanna tell you that the whole damn thing is beauty
Even when times are brooding
I'm a Canadian in every way, especially talking in the US of A
Well I gotta keep on moving, gotta see it through
Everything'll be OK, everything'll be OK, everything'll be OK,
everything is OK!
