

# Celestial Signals

Devin Townsend

Hey!  
You know where to find me  
In the river of life  
As I retire

Say you'll find me, refined me awake again  
No shame in love  
No shame at all  
You're like a butterfly caught in the middle  
You're like a star

Your world is fire  
But how wild?  
With us dying  
There's no love

Hey!  
Are you there to remind me?  
But I know, air is the constant in your mind

Say you'll find me, resign me awake again  
No shame in love  
No shame in failure!  
You're like a butterfly caught in the middle  
You're like a star

Your world is fire  
But how wild?  
With us dying  
There's no love  
Your world is fire  
But how wild?  
With no dying  
We are one

When all we do grinds on  
With all that's true  
Never regret for a minute  
Now all is new

You were on fire  
But how wild?  
With us dying  
There's no love  
Your world is fire  
But how wild  
With us dying  
We are one  
Fire  
But how wild?  
With us dying  
We are one
