Devin Townsend

Time, keep rolling
Soften your eyes

The world is gonna turn without you baby (lead us)
Don't worry about a thing it's all a game (lead us)

Just as you're falling apart, I fall for you

Though we try to pretend that it's not the end
It keeps us calm now babe

I wanna die
I just wanna follow the sun
There's no shame
I wanna die
I just wanna follow the sun

The world is gonna turn without you baby
Don't worry about a thing it's all a game

Just as it's falling apart, I've fallen for you
Just as I tear it apart, I've fallen for you

Though we try to pretend that it's not the end
It keeps us calm now babe

I wanna die
I just wanna follow the sun
There's no shame
I wanna die
I just wanna follow the sun

I just wanna follow the sun
I just wanna follow the sun
