

Falling Apart

Devin Townsend

Rowing, rowing through the waves
Through stormy weather
Rowing, rowing every day
To see you again

I'm in your life

This loss!

So it's falling apart
Where the river goes and we must go again
Keep the tension under control...
You're falling apart

Rolling, rolling, through the waves
The storm is weathered
Rowing, rowing
Better days will see you again

I'm in your life

So it's falling apart
Where the river goes and we must go again
Keep the tension under control...
You're falling apart

I love you, I love you...
I love you

But God, I can't deny I want to live!

So it's falling apart
Where the river goes and we must go again
Keep the tension under control...
You're falling apart

Move into the moment child, tomorrow we'll be gone

Keep the tension under control...
You're falling apart
