

Hear Me

Devin Townsend

All the world is bleeding and you know the reason why
All the world is bleeding though your hearts are open wide
All the world is bleeding, all the world is bleeding

All the world is bleeding and we know the reason why
All the world is bleeding though your hearts are open wide
All the world is bleeding, All the world is breeding

All the world is bleeding and we know the reason why
All the world is bleeding and the fury burns your eyes
All the world is turning...all the hatred burning

I'll keep mourning when the walls keep crumbling
I'll keep mourning

I've come back for light, hear me!

SHINE ON ME!

Shine! Shine! Shine!
I'll wait!
Shine! Shine! Shine!

All the world is bleeding and we know the reason why
All the world is bleeding though your hearts are open wide
All the world is bleeding, All the world is breeding
All the world is turning, all the hatred burning

All the world is bleeding and we know the reason why
All the world is bleeding though your hearts are open wide
All the world is bleeding, All the world is breeding
All the world is turning, all the hatred burning

I'll keep mourning when the walls keep crumbling
I'll keep mourning

I've come back for light, hear me!
