Hey now
Haven't seen you for a while
Just think of all the answers that you know you're gonna find

Hey now
It's happening once again
And you're terrified
You're terrified

I am an alien
I am lost in me

Just hang on
Contain us once again
To think I've been around the world, I knew you were a friend

Hey now
The world is so unkind
Tell me why
There's no why

I am an alien
I am strong and free
And I will not be defined
By this mediocrity
'Cause they're terrified, they're terrified

I am Canadian
I am strong and free
I am Canadian
I am strong and free

And I will not be defined
By this mediocrity
'Cause they're terrified, they're terrified

I am an alien
And you're terrified
You're terrified!
