

# Kingdom

Devin Townsend

I  
I wonder why I wonder why  
I've  
I've come undone

O.K., I know I missed it  
The point I mean, I missed it good  
And if I could  
Good God I would

Now I've seen the way it's headed  
Down and down, the truth descended  
Have it here and without worry  
Baby please, there is no hurry  
I'm fine

Stay with me  
Play with me

Ego, it's only a soul

Now I see the way I'm headed  
Down and down, the youth descended  
Hell is here, but it hath no fury  
Like this woman still, there is no worry  
I'm fine

Stay with me  
Play with me

Without warning, brain is burning
