

PowerNerd

Devin Townsend

Oh, powernerd!

Facing the end
Chasing the wind
Open your mind
Change in your breath
Facing your death
Open your mind

Should we build a new way?
Deliberately?
Leave this behind?
Hair of the dog
All of this gone
All of the time

No giving up
No giving in
No giving up when you know you can take it

All those things we say to ourselves
Time to rise, put that shit on the shelf
All those years spent down in a hole
Time for life and rock 'n' roll
All these things we say are what we do
Let's go!

As we arrive
Lucid of mind
We will arise
Our wings are broken through
Tears are gratitude

No giving up
No giving in
No giving up when you know you can take it
No giving up
No giving in
Oh, powernerd

All those things we say to ourselves
Time to rise, put that shit on the shelf
All those years spent down in a hole
Time for life and rock 'n' roll

Through all those dark years alone
I love petting the cat
Petting the cat
Petting the cat
My cute and furry hell fury
Petting the cat (Meow)
Whoa, yeah
Petting the cat
Petting the cat
Petting the, petting the, petting the cat

All those things we say to ourselves

Time to rise, put that shit on the shelf
All those years spent down in a hole
Time for life and rock 'n' roll
Through all those dark years alone

Time for light
