Some folks love the morning
Some folks love the night
All we're trying to do is get it right
Some folks love the living
While some folks long to die
We need a little love to live our lives

But we need a little more now in the morning
Anticipation makes the morning pay

Coffee, coffee, I love my coffee
(Coffee, coffee, I love my coffee)
Morning brew is perfect in every way
Coffee, coffee, I love my coffee
(Coffee, coffee, I love my coffee)
I love it so I drink it every day

Wakey wakey...

Some folks love the morning
Some folks love the night
Yet all we're trying to do is get it right
Some folks love the living
While some folks long to die
We need some sort of incentive to get us all through those long nights

Need a little something to make the morning
Anticipation makes the morning pay

Coffee, coffee, I love the coffee
(Coffee, coffee, I love the coffee)
Morning brew is perfect in every way
Coffee, coffee, I love the coffee
(Coffee, coffee, I love the coffee)
I love it so I drink it every day

It's early Monday morning
And work is on the rise
All the chaos ringing down the line
Everybody needs something but no one's got the time
And all we're trying to do is live our lives, yeah

So I need a little more to make the morning
But I need a little more now every day

Coffee, coffee, I love the coffee
(Coffee, coffee, I love the coffee)
Morning brew is perfect in every way
Coffee, coffee, I love the coffee
(Coffee, coffee, I love the coffee)
I love it so I drink it every day

Caffeinate me!
Fuck it up!

Early morning, twisted savage morning
I went down to the nook, what did I see?

All my precious beans and all my coffee
Replaced by soggy leaves of stinking tea

Coffee, coffee, I love the coffee
(Coffee, coffee, I love the coffee)
Morning brew is perfect in every way
Coffee, coffee, I love the coffee
(Coffee, coffee, I love the coffee)
I love it so I drink it every day

I love my coffee
I drink it to keep sane
If I cannot have it
Then I cannot play the game
Will not play the game
'Cause the game is just fucking stupid
