

Singularity

Devin Townsend

I don't know where to go and I don't know what to do
But I know I want to be there with my arms around you

I'm alone

Now I don't know where we'll go and I don't know what we'll do
But I'd sell the world for love and I'd sail the world for you
I'm alone, so alone
(No turning back, and I'm on the right track)

They say 'we feel your pain, brother'
Yet they feel nothing for one another

So, through the meadow, through the fields
Shine forever, shine on me

But nothing you've seen could ever remind you
Focus; prepare for redemption through pain you cannot imagine
Forego the material
Fight is forming, return to reaction
Obeying signs from within you
The universe is through you
You're going through the wall

Rage, go through pain
Go through universe
Rage, go through pain
Go through universe
UNIVERSE

I am I
I am I
Life is light
We are infinite
Rejoice and fill your hearts with love
Light begins with you

Take your heart one step at a time
In this time of crying eyes for children gone, have patience
Because I see that all around the world is starting

The seeds of light

But there are still monsters

There are still monsters

RISE! RISE! RISE

I won't be tamed

I won't be tamed, now we must go to war

I am all

(I've got to find a way out of this war)

Psychologic war
Psychotropic war
Psychosexual war
Face the reality - War

Psychologic war
Psychotropic war
Psychosexual war
Face the reality - War

War
Psychologic war
Psychotropic war
Multidimensional war
Face the reality, war
Psychologic war
Co-dependant war
Fear incited war

Face the reality

I choose light

Shine for you are the light

Galaxies unfold within your soul

Selfish messiah
Selfish messiah
Selfish messiah
Selfish messiah

Try the papaya
Try the papaya
Try the papaya
Try the papaya

Softly, dynamically, we fall once again
So try to make friends with yourself

All peace to you
All peace to all

Hear me now
You have lost
I am here to find you
You have been lost
I know you are in pain

From within and without you
We will be together

Lost

I can find you

You are lost in the darkness
There can be only light
I am the light
We shall provide

Rejoice

I am coming, I can save you from yourselves
You are broken, be aware

AWAKEN

Tie this love right through your mind
For as we fall into the sea the mind dies

Return to the ocean

So through the eternal infinite we survive
Know that seasons change and we must forgive ourselves
Seize this fear as any animal would do

To the light: May this steer me
Shine if you hear me

Here comes the sun

Through the meadow, through the field
Shine forever, shine on me
Though the future is hard to see
I'll shine for you if you shine for me

Through the meadow, through the field
Shine forever, shine on me
Though the future is hard to see
I'll shine for you if you shine for me

Through the storm, may you become a rainbow

Join the heavens
Join the sea
Shine for freedom
Shine for peace
Though the future is hard to see
If you can't shine for you dear
Please shine for me

Through the storm, may you become a rainbow

Through the heavens
Through the field
Shine forever
Shine on me
A golden future is strong and free
I'll shine for you if you shine for me

If you can't shine for you friend, please shine for me
