

## Total Collapse

Devin Townsend

Anybody, everybody goes in the end now  
I know the way I gotta go. Send me to war!  
Everybody sing: I am not goin' away  
Oh no!

Anybody, everybody goes in the end now  
I know the way I gotta go. Send me to war!  
Everybody sing: I am not goin' away

You are the pain which you are revealing  
You are the captain of what you're believing  
See the ways of your past  
Then capture the weight of your task  
And we are the ways in which we're deceiving  
Our head is on our drugs and all we've been eating  
We see the ways in your mother  
Yet you capture the pain of your father

Live! I want to live!  
Live! I want to live!

Ah, you're running away from me  
I fall in love with you  
Ah, you're running away from me

Live! I want to live!  
Live! I want to live!
