

Ubelia

Devin Townsend

All of the lines in between us
In black and white, the moment is in the air
But you're not there
You're chained to the past

Ubelia
The expression of the past trials
And of course you wanna save her all the time
'Cause that's the nature of our life

All of the years in between us
In black and white, the moment is here in the air
But you're not there
You're chained to the past

Ubelia
The expression of the past trials
And of course you wanna savour all the time
'Cause that's the nature of our life

And you belong, and two belong
With peace throughout your soul
The universe it moves in random ways
We are home

So we carry on
The expression of the past child
And of course you want to save her all the time

Cause that's the nature of our love

We carry on...
We carry on...
We carry on...

You carry on
