

Younger Lover

Devin Townsend

We're human beings we're trying to stay in love
Just human beings, we're trying to sing...

But who knows if it's all about anything

I'm free!
I'm free!
We're free to go wherever I may roam
Be seen...
I'll see you out there, ever after

A grey day
We're human beings, we're trying to stay

But who knows what it's all about anyway

But I'm free!
I'm free!
We're free to go wherever I may roam
Be seen!
I'll see you out there, younger lover

Cheers, here's to a life
To an easy old age
We'll go somewhere warm, somewhere in the sun...

Right!

Right!

I'm free!
I'm free!
We're free to go wherever I may roam
Be seen!

I see you as the younger lover loved so long ago...
