

# No Safety

Devlin

Devlin  
Lewi White  
No safety on the ting

Whenever I evade the limit  
Wanna run your mouth, get a trainer in it  
Top boy here, no Summerhouse  
Like the show with Asher and Kano in it

Put your broolly up, it's raining lyrics  
Some of you need a little training with it  
Jimmy's the personal trainer in it  
Now I'm gonna put you through your paces with it

Start upping your game, cause the way I come in the game  
It's too much when I feel like I'm running away  
With the goods and the hood like back in the day  
Where the thieves and crooks and savages stay (savages stay)  
[?] flow, I'm Cassius Clay  
Reel you in, then you fall prey  
Can't hide, no nook or cranny is safe

Call me the UK killer  
Call me the urban GOAT  
Call me Dagenham's finest  
On a track, none of them want smoke  
Nope, nope, nope, nope  
Think you're psycho, I'm Alfred Hitchcock  
You played the part that I wrote  
Now fuck off and do another dance on TikTok

I influence the internet, but I'm no internet influencer  
Intricate every time I step, I don't [?] flows sicker than Influenza  
I respect what Wiley said, that I'm the best out here  
Which guy wanna test, huh?

Vietnam type of vet, I seen way more shit than my eyes ever meant to  
My spectrum of vision is like [?], you see what you're meant to  
I've seen past all of that  
I'll never fall in line, my life's an adventure

I can look myself in the mirror, you can't, you snake  
Karma's gonna get you  
Want another big tune, you got it  
It's there, you ain't even gotta ask your Alexa

Call me the UK killer  
Call me the urban GOAT  
Call me Dagenham's finest  
On a track, none of them want smoke  
Nope, nope, nope, nope  
Think you're psycho, I'm Alfred Hitchcock  
You played the part that I wrote  
Now fuck off and do another dance on TikTok

You want old-school me, then you've got it  
I took time plotting then came back

With a fuck less than I once had  
Like Raheem Sterling, let me run mad

You ain't gonna pass me, every time you try  
Then my Fire in The Booth should be gettin' pulled back  
[?] shit, you're full of bullcrap  
And if it's a new [?], that's why it's all cap

If I shot some prick tomorrow  
Then he'll have a lot more [?] to follow  
Tryna bring substance here, it's so hollow  
Chamber of echoes, why do you swallow

The laziness of lazy pricks  
Who must be out of their minds  
If they think that they're blazing this  
What? Do you want a few bars you can borrow?

Call me the UK killer  
Call me the urban GOAT  
Call me Dagenham's finest  
On a track, none of them want smoke  
Nope, nope, nope, nope  
Think you're psycho, I'm Alfred Hitchcock  
You played the part that I wrote  
Now fuck off and do another dance on TikTok

Call me the UK killer  
Call me the urban GOAT  
Call me Dagenham's finest  
On a track, none of them want smoke  
Nope, nope, nope, nope  
Think you're psycho, I'm Alfred Hitchcock  
You played the part that I wrote  
Now fuck off and do another dance on TikTok

There's nowhere safe  
There's nowhere to hide  
No safety
