

## Androgony

Devo

Everybody got the willies  
What's the world coming to?  
Earth revolves in solemn splendor  
Moon do circles, stars do shine  
In the land there walks a terror  
Robs the body, cheats the mind  
Drugs pollution sickness evil  
Make it hard to stay alive  
Androgyny will make it harder  
Take away the primal drive

Androgyny  
Oh my god the mob, the wad  
Androgyny  
Let men and women be

There will listen in and then  
Leave us little time for joy  
Androgyny will make it harder  
Do away with girl and boy

Androgyny  
Oh my god the mob, the wad  
Androgyny  
Let men and women be

Men and women listen  
Let your bodies find the light  
Seek the power of the other  
Love will end the sexless night  
Men and women listen  
Let your bodies do what's right  
Seek the mystery of the other  
Love will end the sexless night

Androgyny  
Oh my god the mob, the [?]  
Androgyny  
Let men and women be
