

Big Adventure

Devo

The world, it goes around
Yet it never seems to get nowhere
Though it turns and spins in time
But it never takes us somewhere new

I wish the world would just stop
And shoot off where it's never been
I want the big adventure
Where it can be that I see something new

I want the big adventure
I want the big idea
I don't need forever
Just want the big adventure
I want to, I want to melt down with you

The movies are always different
Yet they always look just the same
It's a simple canoe come at you
Just paddling a brand new name

I wish just for once that the menu
Would offer up a brand new slice
An adventure so big and so real
And a dream for once would be so nice
