

## Can U Juggle?

Devo

You can think you are super cool  
You can think everybody's a fool  
You can laugh as they struggle through  
Or you can step it up a notch like all the big boys do  
Oh yeah

You can act like you're big and strong  
You can act 'til the crowds are gone  
You can lie to yourself so long  
But you cannot face the facts because your chances are gone

You can lie them up, knock them down  
And tighten the screws  
You can take them down one by one  
Laughing at what you do

But can you juggle?  
Can you juggle?  
Can you juggle?  
'Til the dancers see  
Can you juggle?  
Once you get spit  
Can you juggle?  
Keep 'em up in the air  
Can you juggle?  
Like you don't even care

You can talk without knowing a thing  
You can talk 'til it stop to ring  
You can lose what you thought was yours  
But someday you'll realize she wasn't yours to lose

You can lie them up, knock them down  
And tighten the screws  
You can take them down one by one  
Laughing at what you do

But can you juggle?  
Can you juggle?  
Too dirty times a day  
Can you juggle?  
The bills you will pay  
Can you juggle?  
Three girls in your world  
Can you juggle?  
Or boys if you're a girl  
Can you juggle?  
'Til the dancers see  
Can you juggle?  
Once you get spit  
Can you juggle?  
Keep 'em up in the air  
Can you juggle?  
Like you don't even care

You can think you are super cool  
You can think everybody's a fool

You can laugh as they struggle through  
Or you can step it up a notch like all the big boys do

You can lie them up, knock them down  
And tighten the screws  
You can take them down one by one  
Laughing at what you do  
But can you juggle?
