Blame

Devon Baldwin

I'm getting kinda tired of
The things you say before you walk away
And I'm getting kinda tired of
The way you want me but you can't behave
Did you think I wouldn't notice
Baby you are the coldest
I can't believe I waited around for you
Wait around for you
But you slipped up, lost focus
And I caught you at your lowest
Ridin' around with somebody new
With somebody new
And you said

Baby you're the only one, I promise I'll do better
Even when it all gets rough I'll hold us together
But I said "bye, bye, bye, bye, bye, bye, bye, bye"

I bet you're getting tired of
Wondering where I'm at when it get's late
And I bet you're getting tired 'cause
Facing all the facts drives you insane
Guess you know now how it feels to
Be hurt by the one you
Thought would always be holding you down
Be holding you down
Bet you wish now you had stayed true
Cause you don't know what to do
Knowing that I'll never be around
I'll never be around
And you said

Baby you're the only one, I promise I'll do better
Even when it all gets rough I'll hold us together
But I said "bye, bye, bye, bye, bye, bye, bye, bye"

Boy you thought you'd put me first
You turned out to be the worst
But I won't let you make me take the blame
You thought I would play the fool
Now you know the chance I had
And baby you're the only one to blame
