

Heights Like These

Devon Baldwin

Don't lie to me
Don't try to be who they think you are
Just come to me, just run with me
We could go so far
Cos I been down on my knees
And I been paying the fees
And I been waiting for you
Waiting for you
But you been chasing the thrill
And you been wasting your will
And I been waiting for you
Waiting for you

To show me the light
Show me the black and white
Show me the heights like these
Show me the fight
Show me the darkest night
Show me the heights like these

Give into me, I need to see
Who you really are
This entropy won't set you free
You could choose your heart
Cos I been building the throne
And I been breaking my bones
And I been waiting for you
Waiting for you

To show me the light
Show me the black and white
Show me the heights like these
Show me the fight
Show me the darkest night
Show me the heights like these

Show me the light
Show me the black and white
Show me the heights like these
Show me the fight
Show me the darkest night
Show me the heights like these
