

# Shot For Me

Devon Baldwin

I can see it in your eyes, you're angry  
Regret got shit on what you're feelin' now  
Mad cause she ain't like me  
Oh you mad cause nobody ever did it like me  
All the care I would take  
All the love that we made  
Now you're trying to find somebody to replace what I gave to you  
It's a shame you didn't keep it  
Alisha, Catya, I know that you gon' hear this  
I'm the man, yeah I said it  
Bitch, I'm the man, don't you forget it  
The way you walk, that's me  
The way you talk, that's me  
The way your hair slicked back, did you forget that's me?  
And the voice in your speaker right now that's me  
That's me, and the voice in your ear  
That's me, can't you see  
And you made it, Yeah, you made it  
First I made you who you are and then you made it  
And you're wasted with your latest  
Yeah, I'm the reason why you always getting faded

Take a shot for me  
Take a shot for me  
Take a shot for me  
A shot for me  
A shot for me

Boy, look, I'm honest  
I'm good and I don't miss you  
You and the music were the only things that you'd commit to  
I never cheated, for the record, back when I was with you  
But you believed in everything but me, boy, I don't get you  
He says "I know you changed"  
I never see you cause you're always busy doing things  
I really wish you had a different way of viewing things  
I think the city that we're from just kinda ruined things  
It's such a small place: not much to do but talk and listen  
The men are jealous and the women all in competition  
And all your friends telling you stories that you often misinterpret  
And taint all the images of your "Mrs. Perfect"  
I could tell that you been crying all night, drinking all summer  
Prayin' for your happiness, hope that you recover  
This is one I know you hated when you heard it  
And it's worse because you know you don't deserve it

Take a shot for me  
Take a shot for me  
Take a shot for me  
A shot for me  
A shot for me

I'm just saying you could do better
