

Used To Be

Devon Baldwin

When the sky comes crashing I won't wait for you
When the tables turn I'll watch you lose
I knew you were never gonna choose me too
Still I did everything I could do

'Cause I loved you
I loved the you you used to be
The you you were with me

I've heard that all is fair in love and war
And now I have to watch you kiss the girl you left me for
So how could you sink so deep
You're not half the man you thought you'd be

But I loved you
I loved the you you used to be
The you you were with me
