

Waited Too Long

Devon Baldwin

I can write it down
Yeah, I can write it down
I can close my eyes
Don't wanna look around
If I could find something that I like as much as getting high
Maybe I'd be somewhere I don't mind too much
I'm just out of touch

I waited too long
I waited too long

I would hold you down
Yeah I would hold you down
But you got away
And now I don't know how
To let you know I only ever wanted to get high with you
Show you what you never knew, you never knew
Do you want me to?

I waited too long
I waited too long

I can't quit not doing things
Tell me I'm the only one that can make it all happen
And I don't know who decided I could really make all these decisions for you
Are you kidding? That's some bullshit

I waited too long
(Are you kidding? That's some bullshit)
I waited too long
I waited too long
I waited too long
I waited too long
I waited too long
