

# Call U After Rehab

Devon Cole

You think it's funny when I'm angry  
I pick a fight and you don't mind  
You kiss my nose and call me "Baby"  
I wish we met another time

'Cause I think this could be love  
But I'm working through some stuff

I got problems  
And the old me would have let you try to solve them  
But that isn't fair to you and yes, I want ya  
But I gotta get me back  
Can I call you after rehab?

I wanna run to you for cover  
To get some peace from my own mind  
And I wanna live in your apartment  
And let you be my alibi

But I can't go down that road  
Gotta learn to be alone

I got problems  
And the old me would have let you try to solve them  
But that isn't fair to you and yes, I want ya  
But I gotta get me back  
Can I call you after rehab?

(Can I call you?)  
Call you after rehab  
(Can I call you?)

Your love, it feels like resolution (Hm-mm)  
A spoon full of sugar from my heart (Hm-hm, hmm)  
But I need to find my own solution  
And learn how to be human without you in my arms

I got problems  
And I owe it to myself to try to solve them  
And I think you know by now how bad I want ya  
But I gotta get me back  
Can I call you after rehab?

(Can I call you?)  
Call you after rehab  
(Can I call you?)  
Can I call u after rehab?  
(Can I call you?)  
Call you after rehab  
(Can I call you?)  
Can I call you after rehab?
