

# High & Dry

Devon Cole

I've been burned, lesson learned  
Best to stay unconcerned in the early days  
In the get-to-know-you phase  
Keep it light, it's alright  
If you wanna stay the night  
But let's communicate  
I gotta get this straight

'Cuz I got a tendency  
To read between the lines  
And make something outta nothing  
Oh boy, you got me buggin' (mmm)  
You do feel so good to me  
I wanna make you mine  
But I'm reckless with my lovin'

Baby, tell me now  
Are you gonna stick around  
I don't wanna let you in  
If you're gonna let me down  
So baby, tell me now  
Are you gonna make me cry  
I don't need another lover  
Leaving me high and dry, no

Tatted up, stripped down  
Your pillow talk's the sweetest sound  
And the way we laugh  
Got me thinking this could last  
I can't deny I'm falling for you fast  
But how can I stay unattached  
When you're saying words like that?

Baby, tell me now  
Are you gonna stick around  
I don't wanna let you in  
If you're gonna let me down  
So baby, tell me now  
Are you gonna make me cry  
I don't need another lover  
Leaving me high and dry, no

Once bitten, twice shy  
Don't leave me high and dry  
Don't leave me hanging on  
Wondering what the hell I ever did wrong  
One too, many times  
I've put my heart out on that line  
I'm just dying to know where your heart's at cuz you have mine

Baby, tell me now  
Are you gonna stick around  
I don't wanna let you in  
If you're gonna let me down  
So baby, tell me now  
Are you gonna make me cry  
I don't need another lover

Leaving me high and dry, no
